

# Running Job Submission

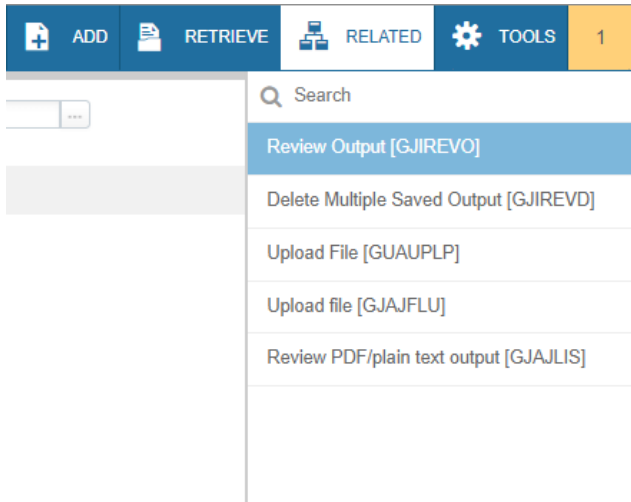

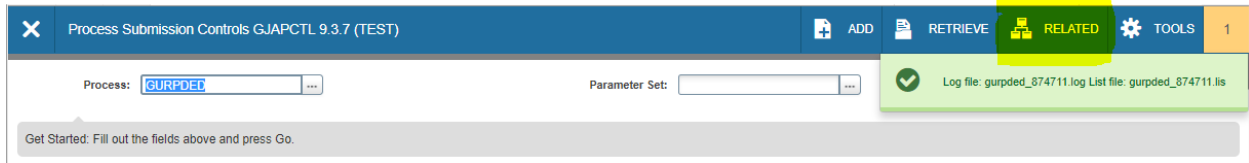

For this example: using GURPDED

1. In AppNav, search for "GURPDED"
2. Select the Process you want to use and the Parameter Set (if any) and then click "Go"

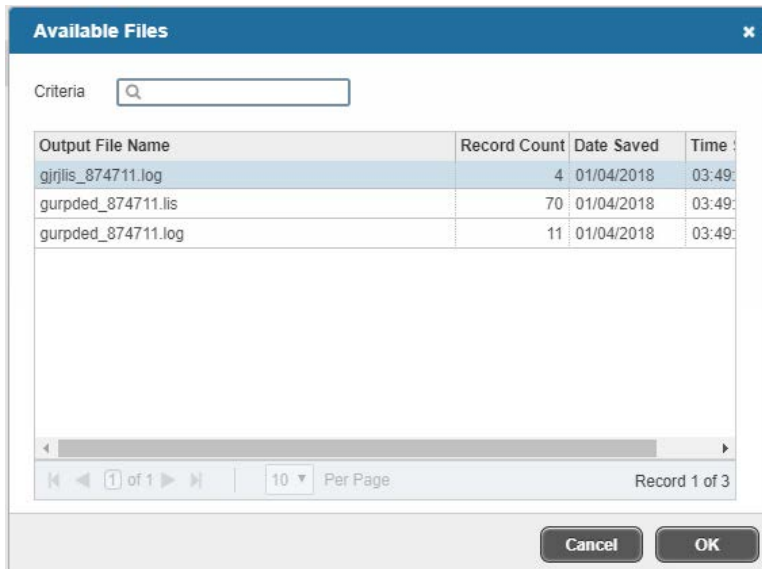

3. Fill out the Printer Control block and the Parameter Values blocked based on how you want the job run and then go into the Submission block. You can click "Save Parameter Set as" and enter a Name for it if you will be using this frequently. Click "SAVE" in the lower right corner or press F8.

# Running Job Submission

- Once finished, you should get a popup notification. To view the files, click "RELATED" and then "Review Output GJIREVO"

- You can then search by the process name, job number and the file name to review the output.
  - If you have just submitted a job, the job name and number will auto populate. Double click the "File Name" field and it will display the output files from the process.

- Double click the file name or click on the file name and click "OK" to open the file

# Running Job Submission

Note: Most Banner job submissions will now create a gjrjls log file that it didn't previously create. This can be ignored and the lis and log file for the banner job you ran itself should be the same as in Banner 8.

The screenshot displays a software window titled "Saved Output Review GJIREVO 9.0 (TEST)". The interface includes a top navigation bar with icons for "ADD", "RETRIEVE", "RELATED", and "TOOLS". Below this, a status bar shows "Process: GURPDED Data Element Dictionary Number: 874711 File Name: gjrjls\_874711.log Beginning Date Saved: Lines: 4" and a "Start Over" button. The main content area is titled "SAVED OUTPUT REVIEW" and contains a log entry:

```
Starting: GURPDED as job 874711
2018-01-04 15:49:41,975 INFO [main] - Completed reading LIS file gurpded_874711.lis for gurpded 874711
0 [main] INFO com.sct.messaging.bif.banner.BannerBatchProcessor - Completed reading LIS file gurpded_874711.lis for gurpded 874711
Connected.
```

Navigation controls at the bottom of the log area include "10 Per Page" and "Record 1 of 4". The bottom status bar shows "EDIT", "Record: 1/4", "GUROUTP.OUTPUT\_LINE [1]", "CANCEL", "SELECT", and the user name "ellucian".
