

Concurrent Enrollment may be for you!

The Concurrent Enrollment Program at University of California, Merced, is a program that allows students to enroll in courses offered on the UC Merced campus without being formally admitted to a degree program. Concurrent Enrollment students may take up to 8 units per semester. Concurrent course enrollment is based on available space, and class participation and assignments are the same as for regular students. The Concurrent Enrollment Program is available during the fall and spring semester. This is an ideal program for individuals who:

- Want to earn university-level credits
- Are thinking about returning to school, but who are not sure if they want to become full time students
- Need only a course or two to complete degree requirements at another institution
- Want to take a graduate course
- Wish to gain up-to-date information in their professional fields
- Are advanced High School students who want to take a college course

Junior college students are also encouraged to take concurrent enrollment classes, but they should first check into *Intersegmental Cross Enrollment*. *Intersegmental Cross Enrollment* is a separate program with lower fees and is administered by the community college and UC Merced.

All campus debts must be paid in full in order to participate in Concurrent Enrollment. Failure to report outstanding balances on campus may result in application denial. Financial aid is not available.

Students must be in good academic standing with their home college. If currently on academic warning or probation, students are required to present written approval from the home college in addition to the Concurrent Enrollment application form.

The academic records of Concurrent Enrollment students are separate from the UC Merced academic record. Participation in concurrent enrollment does not confer or suggest status as a regular UC matriculated student nor does it grant any priority to an applicant for regular admission.

Concurrent Enrollment is on a term-by-term basis. This means that acceptance for one term does not guarantee acceptance in any future term. Applications are reviewed and students will be notified if there is an issue with the application.

Students are not eligible to complete courses through UC Merced Concurrent Enrollment Program if they can answer yes to any of the following conditions:

- They were on probation or dismissed from the University at the end of their last regular semester or quarter.
- They were denied admission to UC Merced.
- They have any financial obligations to the University of California.
- They have ever been barred from the campus by police or court order.

Concurrent Enrollment students do not have the same privileges as enrolled students paying full tuition.

- Enrollment in research or independent study is not allowed.
- You will have an official ID card that allows you to be on campus and have access to the library; \$20 fee applies.
- You must purchase a parking permit through the TAPS office in order to park on campus.

Fee Schedule:

Enrollment and Payment:

Attend the first class meeting of the course(s) in which you wish to enroll. The instructor may ask you to wait until he/she can determine if there will be space in the course after regular students have enrolled. Concurrent Enrollment students may not take independent study or research courses. Return the signed and completed instructor approval form(s) to the Students First Center. Courses are open for enrollment on a space-available basis. Fees are due immediately. Registration is complete upon payment of all appropriate fees and charges. There are no refunds.

Students with Undergraduate Degrees: Students may take graduate level classes with the approval of the graduate division. An additional signature is required on the Instructor Approval form. Students may take undergraduate courses as prerequisites to graduate programs or possibly 2nd baccalaureate programs. Be aware that there may be restrictions on the total number of courses that may be taken through Concurrent Enrollment for any of the above. Check with department advisors regarding these restrictions.

UC Merced Students Interested in Concurrent Enrollment

UCM students taking the last course to graduate with an undergraduate degree are in a special category and will be required to obey certain rules and policies related to the Concurrent Enrollment program. While courses taken through the Concurrent Enrollment program can count toward a degree at UCM, those seeking a degree from this campus should contact an academic advisor in their School for approval before enrolling.

- A maximum of 4 credits may be taken by a UCM student prior to graduation. More than one class may be taken as long as the total units do not exceed 4.
- All campus debts must be paid in full. Failure to report outstanding balances on campus may result in application denial.
- A student must be in good standing. Students currently on academic warning or probation must present written approval from your School with the Concurrent Enrollment application form.
- Grade points (GPA) for courses taken through Concurrent Enrollment are not counted toward fulfilling requirements for the degree.

Students on the Education Leave Program and undergraduate students who have left UC Merced and have not earned a degree cannot enroll in the Concurrent Enrollment program until 12 months after the end of their last semester of enrollment as a degree seeking student at UC Merced.
